

Hi!

Let's get started.

Important Safety Instructions

1. Read these Instructions.
2. Keep these Instructions.
3. Heed all Warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding - type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.

12. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Special note: When placing your unit on a lacquered or natural finish, protect your furniture with a cloth or other protective material.

FCC Warnings

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Additional Warnings

The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on apparatus.

L'appareil ne doit pas être exposé aux écoulements ou aux éclaboussures et aucun objet ne contenant de liquide, tel qu'un vase, ne doit être placé sur l'objet.

Battery shall not be exposed to excessive heat such as sunshine, fire or the like.

Les piles ne doivent pas être exposées à de forte chaleur, tel qu'à la lumière du soleil, au feu ou autres choses de semblable.

Caution marking is located at the rear or bottom of the apparatus.

Attention marquage est situé sur le panneau arrière ou inférieur de l'unité.

The marking information is located at the rear or bottom of apparatus.

Le marquage est situé sur le panneau arrière ou inférieur de l'unité.

This symbol indicates that this product incorporates double insulation between hazardous mains voltage and user accessible parts.

Wall mounting

Place the wall mounting template against the wall under your TV, using a pencil to mark the eight bracket holes.

Remove the wall mounting template, using the included screws to attach the brackets to the wall. Be sure your screws are attached to wood studs, drywall, or concrete anchors. (for brick/concrete walls)

Consult a professional installer if you are unfamiliar with power tools or the layout of electrical wiring in the walls of your home.

Troubleshooting

If you have a problem with your Sound Bar, there is quick simple solution, first make sure following:

- The cables between Sound Bar and input devices are securely connected, the power adapter also connected to a working power source.
- Power switch on the back is turned on and LED indicator is lighting on the front.

No sound

- Check if all cables connected properly.
- Press Mute on the remote to ensure the Sound Bar is not muted.
- Press Volume+ on the remote or the right side of your Sound Bar.
- Make sure you have selected the right input source on your remote, and the LED is lighting accordingly.
- If using Bluetooth, check if the sound on your device is under minium volume.

Remote isn't working

- Check if the battery is installed properly with power.
- Check if the signal of the receiver is covered by something.

Bluetooth can't be connected

- Check if the Sound Bar is connected with the third Bluetooth device.
- Be sure that there are no solid obstructions between the Sound Bar and source device.(within 40 feet)
